 **Captures d'écran :**

The screenshot shows a Mozilla Firefox browser window with the URL `http://localhost/roland/zikula_11/index.php?module=ZkUnit&func=view&testmodule=Timelt`. The page displays the Zikula website header with navigation links for Home and Submit Article. A main menu is visible on the left side.

The central content area is titled "Run tests" and includes a "Module" dropdown menu set to "Timelt". A warning message states: "Warning: When you run a test, zkunit will delete all existing data for that module to create a clean environment!".

Below the warning, there are two tables of test results:

Unit tests		
Name	File	Options
filterapi	Timelt__filterapiTest.php	🟢 🟡
userapi	Timelt__userapiTest.php	🟢 🟡
recurrence	Timelt__recurrenceTest.php	🟢 🟡
calendarapi	Timelt__calendarapiTest.php	🟢 🟡
subscribeapi	Timelt__subscribeapiTest.php	🟢 🟡
All		
🟢 🟡		

User interface tests		
Name	File	Options
userui	Timelt__useruiTest.php	🟢 🟡
All		
🟢 🟡		

On the right side of the page, a "Who's online" section indicates "1 anonymous user and 1 registered user online" and "You are logged in as admin."

The footer of the page contains the word "Fertig" and a small logo.
